General Pricing and licensing guidelines

- All prices are in HKD per user per year and are exclusive of Tax.
- This promotion price is valid till 31/March/2009 and only for new orders only.
- Minimum order value \$800.
- The per user price is the greater of: 1) the number of servers and computers protected, or 2) the number of users protected. Home use is not included with small business solutions. A valid email address is required with all orders.
- The number of servers covered by the licence is limited to 10% of the total number of users licenced, with a minimum of one.
- For small business licences of over 100 users, please refer to your account manager for more information.
- Existing enterprise customers can choose to move to the equivalent small business solution. However, the new small business pricing will only apply when their current licence is due for renewal, except in situations where the small business licence is more than their current licence.
- Existing customers using Sophos Small Business suite v1.x can get the upgraded v2.5 of Sophos Anti-Virus Small Business Edition and Sophos Control Center at any time, free of charge, during the period of their existing licence.
- Existing customers using Sophos PureMessage for Windows/Exchange Small Business Edition can be offered PureMessage for Windows/Exchange Enterprise Edition at renewal time with an additional discount of up to 30%.
